The March meeting had great deserts, and celebrated birthdays, some of which are mentioned above. April birthdays are on page 4.

It is time to renew membership, remember to send in your dues, or bring them to the next meeting!

President's message:

Here it is the First of April, and I am enjoying no one fooling me. I am myself fooling around with Ham Radio, And I hope you are too. Went to church this morning-and it was a great time-good people and such a sunny day! All of you I trust had a great morning, followed by a great Family Meal-and lots and lots of chocolate bunnies and hard-boiled eggs. I certainly hope your Eggs were hard-

W. STUART HOME

boiled.

WB6VRJ

I have heard some good things about band openings and good things about other types of operations, and that is positively good.

It was simply great to welcome some new hams and visitors at last months club meeting-y'all come back, Hear?

April Meeting- Hacking the Kill A Watt
How to modify the plug-in watt meter for a new use. And how to use the modified meter.

Dave, KA6VTA was the first prize winner at the March meeting raffle.

On the left is Dean, AF6MC, who gave a great talk about power connectors, and showed an amusing video which elicited laughter and groans from the group at the March meeting.

FARC

Send your dues check to FARC, PO Box 5912, Fresno 93755-5912

Refer questions to Joe/WA6FFJ 288-2202 Board meeting on the first Tuesday at Stu's place.

AMATEUR RADIO EXAMS IN FRESNO

Exams given for
TECHNICIAN, GENERAL, and AMATEUR EXTRA
Sponsored By the
FRESNO VE TEAM
And The
FRESNO AMATEUR RADIO CLUB, INC.

2018

Exams for all Amateur license classes will be conducted on the following dates in Fresno California. All exams are given on Saturday and begin at 9:30 AM.

May 19

August 18

Nov. 17

LOCATION:Salvation Army Fresno Citadel, 1854 Fulton Street, Fresno CA 93721

DIRECTIONS: From North or South of Fresno, Take Highway 99 to Highway 180 east. Go east on 180 to Fulton Street off ramp. Turn right on Fulton Street. Go south on Fulton across Divisadero to Sacramento Ave. Turn left on Sacramento Ave and park. You have arrived.

Theory exams are multiple choice. First Class mail is used to send paperwork to ARRL, who sends data to FCC via electronic mail, thus assuring the fastest possible service on new licenses, which typically are posted to the FCC database by the end of the second week following the exam.

BRING. Two ID's, one with photo. Taxpayer ID Number (Social Security Number), or FCC Registration Number (**preferred**). Fee **\$15.00** per test session. Bring exact change. **Original** and **copy** of **Amateur License**. Talk in on 146.94 repeater.

Walk in's only, no pre-registration.

More Info?? Contact Charles, (559) 431-2038

San Joaquin Valley Nets:

The Noontime net meets on 7.268.5 MHz. This net handles a lot of messages.

Daytime Region 6 Traffic Net meets daily at 3:30 pacific time on or near 7.275 MHz. This one is probably not in operation at this time.

The California Traffic Net meets daily on 3.906 MHZ and 6:00 PM local time.

The Golden Bear Amateur Radio Net meets nightly at 7:00 PM local time on 3.975 MHZ.

Northern California Net (NCN), the Section Traffic Net, meets nightly on 3.533 MHZ at 7 PM Pacific Time.

San Joaquin Net meets Monday-Saturday on 3918khz, at 6 PM Pacific Time.

Western Public Service System (WPSS) meets nightly on 3952khz, roll - at 7:30 PM local Pacific Time.

The Mission Trail Net meets nightly on 3.856 MHZ at 8:00 PM local time.

Northern California Net 2 (NCN2) The slow speed training session of NCN, meets nightly on 3.533 MHZ at 9 PM Pacific Time. Handling traffic on CW is a good way to improve your CW skills.

Remember to keep you dues current for both the attendance prize and the birthday and anniversary listings.

Birthdaydays

4/10 Perry K6XJ
4/11 Margaret K6LRW
4/22 Bob N2NS
4/25 Denny KD6HT

Anniversaries

None listed for this month

Ten meter net, CW and Phone, every Wednesday
7 P.M. for CW at 28.140
8 P.M. for SSB at 28.445

This is a local net, the cw part run by KF6ZXO, and the SSB with various net control ops.. Have fun checking in on one or both modes.

Joe, WA6FFJ, is our net control operator for the W6TO nets.

The monthly attendance prize!

The attendance prize in March was won by AG6GI, who was present. Must be present to win. Next drawing will be \$10.

T-HUNT

Hello fellow hunters!

The first transmitter hunt of 2018 takes place on Saturday, April 28. Tom (N6MQG) is the fox this time around and he identified the start point as the Park & Ride at the NE corner of Hwy 180 & McCall Avenue.

The hunt begins at 10:00 AM. Please arrive early to sign in and receive any further details Tom may provide before the hunt begins.

MAP - <https://www.google.com/maps/@36.7365441,-119.6095723,184m/data=!3m1!1e3>

* If you are planning on attending, please send me an email - Rick@W6KKO.com

This will allow me to take a tally of hunters in attendance, or if the hunt should be postponed.

As always, please tune an additional radio to the C.A.R.P. Mile High repeater system to talk in, and to stay in contact during the hunt. Sometimes hints may be provided by the fox.

<http://www.k6arp.org/repeaters/carp-repeater-system/>

Marshal, WA6PRE, at the March meeting had just returned from a visit to VK (Australia) land, and showed us a display of Australian currency.

He enjoys his extended visits and has many ham friends down under.

THE DX CORNER

By Charles McConnell W6DPD

April 2018

"DX is the one you want but you don't have. That is the way it has always been, that is the way it will always be." Of the most recent DXpeditions, "If you worked it, it was the best DXpedition ever. If you missed it, it was probably not so good." "And so it goes."

All things are relative, some more than others. Thanks Hugh Cassidy, WA6AUD SK.

If you want help with DX, you can contact the local members of the Central California DX Club for some assistance. Charles W6DPD 431-2038, or Perry K6XJ 299-2802, can give you advice. The big thing about finding DX is to tune the bands.

The DX Breakfast is every Saturday at Jeb's Blueberry Hill Café, 3851 N. Blackstone Ave in Fresno. This group gathers about 06:30 AM. All are welcome.

Check out www.spaceweather.com and www.solarham.net for information on the solar cycle. The higher the solar flux and the lower the A and K Indices, the better the band conditions. As the solar cycle heads toward the minimum by the end of the decade, working DX becomes more of a challenge. The high bands become less useful until the solar cycle heads toward the maximum, some years from now. There were over 100 sunspot free days in 2017.

The address of the Sixth District QSL Bureau is P. O. Box 970, Fairfax CA 94978-0970. You can send up to 10 address labels and \$0.80 for each envelope to the address above. They will put 1 unit of First Class postage on the envelope. You can contribute \$10 or \$20 online using Paypal. If you work DX, you should have envelopes at the bureau so you can get your cards. You may be able to check your status at the bureau at <http://www.qslbureau.org/>

The ARRL Outgoing QSL Service has raised the rates, effective November 1, 2016, for sending ARRL members QSL cards to foreign countries. The new rate is \$1.15 per ounce, about 10 cards. There is now a \$7.00 transaction fee for each submission. Sending one ounce of cards (about 10) will now cost \$8.15. Ten ounces of cards would cost \$11.50 plus \$7.00.

U.S. Postage has increased on January 21, 2018. Overseas postage is still \$1.15 per ounce. Domestic postage is now \$0.50 for 1 ounce. Additional ounce for domestic mail is still \$0.21. Postcards are now \$0.35.

If you don't get a DX Bulletin and you belong to ARRL, you should register on the members only web page and check the box for the ARRL DX Bulletin. This one is emailed each Thursday. Or you can go to the ARRL web page in the News/ Bulletin section and view the bulletins there. You can also read the OPDX Bulletin or the 425 DX Bulletin on the web. Search OPDX Bulletin or 425 DX Bulletin to get the URL. You can subscribe to the Daily DX, or Weekly DX. These bulletins will keep you informed of DX operations and QSL information.

Fresno Amateur Radio Club

Continued from the last page

The following operations are scheduled:

Bouvet **3Y0I** is scheduled again. Date is not known at this time.

Djibouti **J28PJ** for 3 to 5 years

Ascension Island **ZD8D** maybe an October 2011 start

Ascension Island **ZD8AC** now for 2 years

Senegal **6W1SU** now for 2 to 3 years

Gabon **TR8CA** September 15 for 4 years

Rwanda **9X0TA** August 5, 2017 for 3 years

Rwanda **9X9PJ** now for 2 years

Macquarie Island **VK0TH** soon through March 2019

Honduras **HR/F2JD** February 15 to May 10, 2018

Franz Joseph Land **RI1FJL** soon until July 2018

Zimbabwe **Z2LA** March 2 to March 11, 2018

Franz Joseph Land **R1FJ?** September 1 to July-August 2018

Sri Lanka **4S7KKG** November 1, 2017 to March 25, 2018

Burkina Faso **XT2AW** March 19 to April 10, 2018

New Caledonia **FK/5B4ALX** March 20 to April 4, 2018

Tuvalu **T2AR** April 8 to April 15, 2018

St. Brandon Island **3B7A** April 5 to April 17, 2018

St. Barthelemy **FJ** April 18 to April 27, 2018

Togo **5V1JE** until May 2018

Lord Howe Island **VK9LU** May 11 to May 18, 2018

Temotu **H40** May 2018 for 5 fays

Mozambique **C8T** May 2 to May 15, 2018

Kosovo **Z68AA** and **Z68RBJ** May 14 to May 21, 2018

Svalbard **JW4JSA** now to June 1, 2018

Baker Howland **KH1** June 6, 2018 to July 8, 2018

ST. Paul Island **CY9** August 2018

Trinidad **ZZ0T** sometime in 2018

Christmas Island **VK9X** October 16 to October 30, 2018

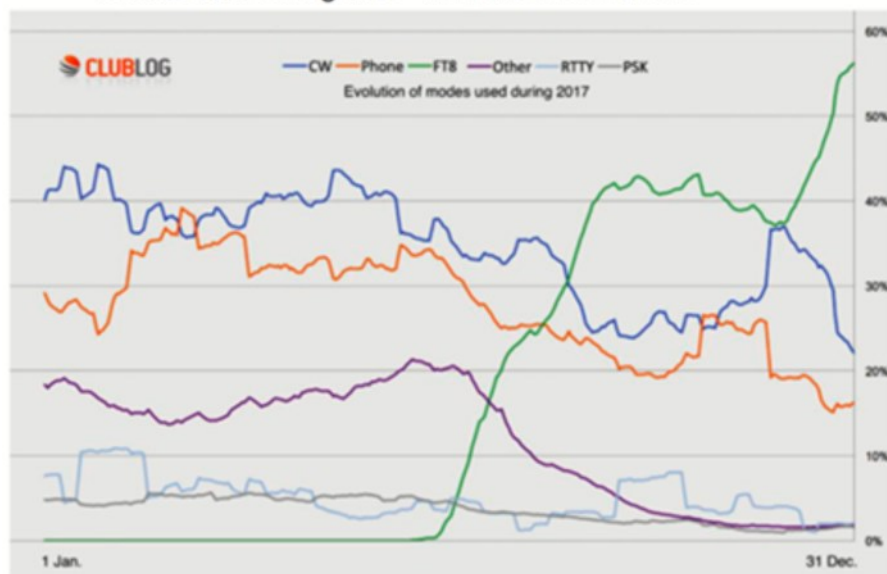

Ducie Island **VP6D** October 19 to November 3, 2018

Charles, W6DPD

Watch the DX Bulletins for up to date information. As the time for the operation is at hand, watch the DX Summit (www.newdxsummit.fi) for listings.

Modes used during 2017 – and the arrival of FT8

Club Log graph showing modes used by radio amateurs in 2017, and the emergence of the FT8 digital mode

There are a number of state QSO parties each year. Check the contest coral in QST or the ARRL web page. State QSO parties are a good place to collect states for your Worked All States award. ARRL Log Book of the World now supports the Worked All States Award and the WPX Award. WAZ will soon be supported by LoTW.

Good luck, tune the dial, and listen.

The chart on the right shows how FT8 has gained popularity vs. other modes. CW is remaining steady, with the biggest drop in JT-65.

Fresno Amateur Radio Club

EC Report for March 2018

Hello,

The schedule for the month of March: 4 Monday Night EmComm Nets, 1 EmComm Meeting, 1 EmComm & Coffee, and 1 public service event.

ARES ID Cards

The County has not distributed ID cards for a period of time and subsequently new members do not have proof of identity with our organization.

If you do not have an ARES ID card, please contact me, and I will get one printed and in your possession.

I will send you an ID that will work in conjunction with a valid California Driver's License or California ID Card. Our new card will not need your picture or signature.

The Thought for the month

This last week I was looking through Facebook and noticed the diagram below that was posted by Bill Johnson (W6WGJ). This post made me think of the importance of the location of your antenna on your mobile. I had no idea that you could have such a dB loss just by locating your antenna in a bad spot on the vehicle. I would like to thank Bill for making this data available. Diagram is on page 11.

Fresno EmComm Net Changes

As of January 8, 2018, the Net Script has changed. Great care has gone into making improvements to the script to help keep interest and streamline the net. The net is basically the same information but in an improved format.

When you talk to Gary Greenberg (KI6OYW), thank him for all the hard work he puts into keeping the net going.

ANNOUNCEMENT, UPCOMING EMCOMM 2018 EVENTS

**April 7, 2018 – California Classic Bicycle Ride
& March of Dimes Walk**

April 21, 2018 – Hinds Hospice Angel Babies Walk

May 5, 2018 – Kirch Flat Bicycle Ride

June 30, 2018 – Climb to Kaiser Bicycle Ride

September 8, 2018 – Tour de Fresno Bicycle Ride

October 13, 2018 – Bass Lake Double Century Bicycle Ride

If you would like to volunteer to work one or more of these events please go to k6arp.org and sign up. You can also email Rob Mavis at (AE6GE@ae6ge.com).

Fresno Amateur Radio Club

Remember that we use these public service events as training venues. **We recommend that you participate in at least three events a year.** Soon this will be mandatory for you to keep your ability to be deployed during a disaster. Remember that we want to have qualifications and operational levels for our operators. This will help when we are asked to perform mutual aid for other County ARES/RACES Groups. When they ask for help, they want our people qualified.

Sanger Blossom Trail Run

We helped the Carp Club with the Sanger Blossom Trail Run. Approximately 8 Fresno County ARES members participated with the communications for the event. We use these events to help our members improve their operating skills as well as working under a net situation. Besides the training it is a lot of fun.

EmComm Website

We are now posting events and meetings on the calendar as well as posting articles on the home page. Check us out at fcmcomm.org.

Net Control Staff Needed

We are looking for volunteers to take a turn as net control on Monday nights. This is not a difficult task. We will provide the preamble and net roster. This is a great way to enhance your skills running a net for emergency situations. If you are interested, please contact Gary (KI6OYW) at 559-269-1340 or email g_greenberg@att.net

Our Calendar

Don't forget the **Monday Night EmComm Net** at 19:30 hr. on the 147.15 MHz PI 141.3. We have some good information and camaraderie. On the third Friday of the month there is the **EmComm & Coffee** at YFC on Cedar south of Ashlan in Granite Park at 07:00hr. And last but not least the EmComm Meetings are held on the Fourth Thursday of month. Our next meeting will be **March 22, 2018 at 1900 hr.** at the **Hinds Hospice Building, 2490 W. Shaw Fresno**

Best of 73's GLEN CAINE (N6HEW)
Fresno County ARES EC/ RACES Officer 559-999-7590 N6HEW2@gmail.com

Pay, W6YEP, with an antenna for the 47G ham band. He is looking forward to making a system for that band for use in the vhf contests. A 24g system was successfully added for the contests, and now the plans are to go higher.

Mobile Antenna Mounting Consideration

A typical 5/8 wave 145 MHz (2 meter) antenna requires a ground plane of at least 42" in diameter. At 450 MHz just 15" is required and at 800 MHz a minimum of 8" is considered sufficient.

In terms of mounting mobile antennas on a vehicle, there are five general locations: the roof, front fender, rear fender, trunk and rear window glass (although other glass mount locations may be used). Of these, the center of an automobile roof is considered the best for mobile antenna placement, followed by the center of the trunk lid, the fenders, and then on-glass mounting.

Fresno Amateur Radio Club

Our club members active on the air:

For those of you interested in or already hooked on the new FT8 digital operating mode using WSJT-X, check out this outstanding 54-page operating guide put together by Gary Hinson, ZL2IFB.

http://www.g4ifb.com/FT8_Hinson_tips_for_HF_DXers.pdf

Gary's goal is to promote better FT8 operating standards on HF. His guide goes a long way toward making that happen.

CQWW WPX Contest, SSB

Call: N2NS Class: SO(A)AB HP Operating Time (hrs): 11:28

Summary: Band QSOs

160:	0
80:	8
40:	56
20:	158
15:	77
10:	27

Total: 326 Prefixes = 211 Total Score = 186,735

Comments: Part time between company and weekend activities. EU was tough to work either AM due to packed band/NA splatter. Same problem digging out JA's around my s/r on 40m. Nice to see 10m open a bit to SA Sun afternoon.

BARTG HF RTTY Contest

Call: N2NS/6 Class: SOAB HP

Band QSOs Countries Call Areas

80:	7	2	6
40:	56	11	17
20:	159	16	21
15:	3	3	0

Total: 225 32 44 Continents = 5 Total Score = 85,500

Comments: Part time.

ARRL DX Contest, SSB

Call: N2NS Class: SO Unlimited HP

Band QSOs Mults

160:	3	3
80:	8	7
40:	41	30
20:	207	72
15:	61	31
10:	7	3

Total: 327 146 Total Score = 143,226

Comments: Part time. Sunday was generally a slog. Lotsa bogus spots. Lotsa horrible splatter and wide signals. Not much fun. Kudos to those who were able to run and pile up the big numbers.

Subject: ARC welding 101 Dang, I forgot my helmet

https://www.youtube.com/watch?v=MhBbF4A_gBI

Power Reports in contests. Perhaps we should go to Roman Numerals...

MD = 1500

M = 1000

DC = 600

D = 500

CD = 400

CCC = 300

CC = 200

C = 100

L = 50

XX = 20

X = 10

V = 5

It's fast, not ambiguous, and easily misunderstood.

RADIO MAGAZINE CALLS NEW CONTEST A DRAMATIC FAILURE

By WBØRUR, on the scene

NEW CAMBRIDGE, Maryland — The staff at a national magazine devoted to amateur radio is calling its most recent radio contest a “dramatic failure.”

Darius Von Sparringburg, Chief Editor of “73s and 88s” magazine, says logs submitted for the recently completed “North American QSO Championships” contain an unusually high number of errors. So many in fact, that the contest may be declared invalid. “At this early stage of NAQC log checking, we’re finding 99.3% of all logs contain errors. Most logs are so riddled with mistakes they are not even worthy of inclusion in the contest results. Our log checking software is overwhelmed. We’ve had to hire additional interns to manually inspect the entries.”

Von Sparringburg attributes the multitude of disqualifying operator errors to an overly complicated contest exchange, which is he adds “sounded good when we were talking about it in the planning meeting.”

“The exchange included a contest serial number, followed by a signal report. The operator then sends a driver’s license number, operator’s mother’s maiden name, the serial number of the radio being used on the air and a ZIP+4 postal code. DX stations were also required to include the AT&T international calling code for their respective country. Apparently, this turned into an unwieldy exchange for many.”

A typical DX exchange (example is station located in Liechtenstein):

009 599 965427047 SMITHFIELD 094362 72703 3297 011 423

Alarmingly difficult to communicate on SSB, almost impossible on CW and time consuming to the extreme on PSK31, editors at the magazine say operators sounded off in the “Soap Box” section:

“Who the hell came up with this exchange? FOOLS!”

“My mother’s maiden name is Rickenhausingfield. I had 50 characters in my contest exchange!”

“It took 8 minutes to send my information to the other station.”

“I was killing it with a QSO rate of 5 QSOs per hour.”

“It took me 15 minutes just to program my CW keyer.”

“I went to town and did some grocery shopping while my macros sent the contest exchange.”

Von Sparringburg says the magazine may consider running the contest again next month.

“But we’d use a new contest exchange — something simple like year of license, ITU Zone, CQ Zone, Maidenhead grid square locator data, and maybe the type of antenna being used,” he says.

Editor’s Note: “73s and 88s” magazine is published bi-monthly. It features interviews and articles about ham radio. Each issue includes a “centerfold” pull out section, featuring a ham radio operator “suggestively” displaying a piece of HF gear from his shack.
